

Providing Timely, Quality Maintenance and Service for Marine Refrigeration Systems

Providing the World with Quality Marine Refrigeration Service

Maintenance

Your ships operate around the clock and operational reliability is of the greatest importance, and for more than 40 years, GEA has supplied the world with quality marine refrigeration service. Our factory trained service technicians are available around the clock for your refrigeration repairs, equipment inspections, compressor retrofits and complete maintenance for both reciprocating and screw compressors.

GEA Refrigeration supplies all technical expertise and spare parts, irrespective of brand name. This unique approach is possible because of GEA's framework of agreements at competitive prices.

Our trained service technicians are at your disposal around the clock for:

- Refrigeration and electrical repairs
- Plant inspections
- Maintenance and complete overhaul of reciprocating and screw compressors
- Refrigerant retrofits
- Technical control maintenance

Quick Response

GEA Refrigeration North America understands the need for immediate and timely response in the shipping industry. With the establishment of our office in Miami our response time is optimized even further. Our qualified technicians are stand-by and ready to provide service 24 hours a day for the following marine refrigeration applications:

- Water chiller plants for AC purposes
- Provision plants
- Air conditioning plants
- Reefer vessel plants
- Fishing trawler plants

Each system maintained by GEA Refrigeration North America is recorded into our Installation Registration System (IRS). As a result we have all the technical information on your equipment immediately available. If a defect occurs that requires the attention of a specialist, we can brief him quickly and accurately and send him on his way to your ship within 24 hours, wherever it may be. After his visit we report back on the exact performance level of the system. GEA can quickly respond from any of our service centers strategically located around the world.

Service Organization

GEA service can be carried out both on a contract or ad hoc basis. Our special spare parts division guarantees you a quick delivery of parts for almost all types of refrigeration equipment, at competitive prices.

When you need immediate service for your refrigeration equipment, contact us at our Miami service center at (305) 913-7500, or our headquarters facility in York, PA (717) 767-6411.
